

ZUBAIR ALI

BS Software Engineering Student

📞 +03244983583 ✉️ zs970120@gmail.com 🔗 <https://github.com/ZubairZubii> 📍 Islamabad, Pakistan

SUMMARY

Full Stack Developer and AI Engineer with **2+ years of experience** in web development and intelligent system design. Proficient in the MERN stack, API integration, and no-code tools like Softr, Make, and Monday.com. Skilled in creating AI solutions such as chatbots, recommendation systems, and computer vision applications.

EDUCATION

BS Software Engineering

FAST NUCES, Islamabad

📅 2022 - 2026 📍 Islamabad, Pakistan

- Focused on software development, AI, and system design with hands-on project experience.

Intermediate (Pre-Engineering)

Unique College, Lahore

📅 2020 - 2022 📍 Lahore, Pakistan

- Studied core engineering subjects with strong emphasis on analytical skills.

EXPERIENCE

AI Engineer & Project Contributor

Freelancer (Fiverr, Personal Projects)

📅 2022 - Present 📍 Islamabad, Pakistan

- Built AI solutions: chatbots, recommendation systems, and vision models
- Delivered complete project lifecycles from model training to deployment.
- Effectively communicated technical progress and documentation to clients.

Automation & Web Intern

Proto IT Consultants

📅 2025 - Present 📍 Islamabad, Pakistan

- Automated workflows using MindCloud, Make, and Monday.com with API integrations
- Built front-end apps in Softr linked with backend systems.
- Created real-time pipelines and dashboards for process optimization.

CERTIFICATION

Machine Learning (Simplilearn)

Certificate Code: 7427506 (October 2024)

Prompt Design in Vertex AI (Google Cloud)

Certificate - Skill Badge: Introductory

SKILLS

MERN Stack

API integration

Softr

AI/ML (Python, NLP, OpenCV)

MindCloud

Monday.com

Workflow Automation

Data Structures

Operating Systems

Databases (SQL & NoSQL)

PROJECTS

E-commerce & Weather Web App

Built a full-stack application using React, Node.js, and MongoDB to deliver a seamless shopping and weather experience with real-time updates and user-friendly design. **2025**

AI Chatbots for Client Websites

Created and deployed chatbots for medical help, food ordering, and more, enhancing user interaction through AI integration on various client platforms. **2023**

Flappy Bird AI with Reinforcement Learning

Implemented a Q-learning model to train an AI agent to play the Flappy Bird game autonomously. **2022**

Workflow Automation for Businesses

Automated business workflows for companies like Triangle, Reality Landscape, and Lookout Pest using tools like Make and Monday.com for cross-platform data syncing. **2025**

PAWTouch Portal with Softr & Monday Integration

Created a dynamic pet management portal using Softr, integrated with Monday.com for NDA signing, employee onboarding, and feedback collection. **2025**
